

April 8, 1974

thing so we barred the county attorneys in Douglas County from having outside practice. And I'll bet you if you'd look into this one, you'd find out that too. In fact, when a person comes to a place where his personal life conflicts with his public life when it comes to money and as far as practicing law, you know darned well what he's going to do. He's going to take care of his personal law practice first. Now, that's human nature, I guess, for attorneys at least. That's why they're in the job and this is one of the things that's been brought up against our county defender. The same type of thing. And it's questionable whether they use secretaries and things like that in their law office even on that one for their private situation. They're getting good jobs. They've got good jobs. I don't think you can have a conflict here. You don't allow the judges to have outside practice when it comes to district court and supreme court, etc. And I don't think you should allow county attorneys to have outside practice and their staff too. Pay them well and then you won't have it. Now, as far as these little counties, Lancaster County I don't think is a little county.

PRESIDENT: Next to speak is Senator Stromer.

SENATOR STROMER: Mr. President, I would oppose the indefinite postponement motion on this bill. I think that first of all this is not a mandatory bill. It's permissive allowing the counties of small size to do it if they wish to. This is a bill that was not only asked for by Buffalo County and the board in Buffalo County. And the county attorney also agreed there which I think was probably not true in some other cases. Rather than indefinitely postponing this bill, I think it would be necessary to have it before the election, before the primary election.....

(Begin 10A)

this year. That if Lancaster and Sarpy Counties want to be out of the bill as they were amended in the other day, that the proper motion would be to take them out of the bill and not to destroy the original intent which was asked for by several of the counties. And it was also supported by the county officials' association. And so consequently I think that rather than indefinitely postponing this bill, that if Sarpy and Lancaster County want out, let's take them out. I'm agreeable to this. I think that's fine. But let's don't kill the entire bill...it is not mandatory and it is permissive to be used only by those counties who want to. And so we should not be misled by the words of Senator Mahoney where he says that this would require everybody to be involved in this particular bill. It would not.

PRESIDENT: Senator Cavanaugh, then Keyes, Snyder, Simpson and Frank Lewis. Lewis may be passing? Okay.

SENATOR CAVANAUGH: Mr. President and members of the Legislature, I would oppose Senator Mahoney's motion to indefinitely postpone and I do agree with Senator Syas. I think when Omaha or Douglas County was, Douglas County
